

EDENBASE

Inspire • Invest • Transform

About Us

EdenBase is a Eurocentric fund investing in [Seed to Series Series A](#) companies, and [actively working](#) with our portfolio to adopt and integrate AI and emerging technologies into existing systems.

We see ourselves as catalysts of change, driving the convergence of traditional industries and emerging technologies.

Our approach goes beyond investment; we are committed to driving tangible change by leveraging the unparalleled opportunities offered by AI and emerging technologies, empowering our portfolio companies to become pioneers, reshaping industries, challenging conventions, and propelling our collective future forward.

We are looking for...

TEAM

Seeking visionary teams with expertise to leverage emerging technology for impactful change. Domain experts who are open-minded and driven to explore emerging technologies.

PRODUCT

We are actively seeking startups that have successfully brought their product to market and are demonstrating initial signs of customer interest.

INDUSTRY

Our main investment focus includes fintech, SaaS, MediaTech, PropTech, and healthtech. We invite startups from industries leveraging emerging technologies to drive convergence within traditional sectors.

TECHNOLOGY

We're searching for companies with the potential to become top performers leveraging emerging technology such as AI, Blockchain, AR/VR, and 5G. We don't require companies to currently be using emerging technology.

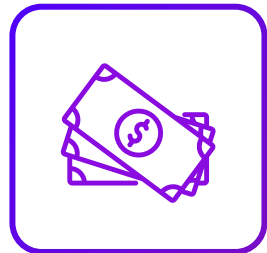

Investing Strategy

OVERVIEW OF THE EDENBASE PROCESS

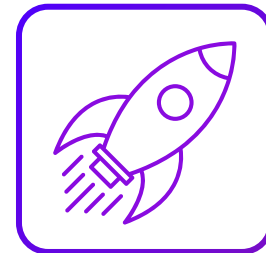

Investing Strategy
